

## CLEAR SKY

◀ Brings the outside to your plants

The *Clear Sky* with the unique patented *Nex-Hood* allows the roof to partially open during inclement weather

◀ Offers a cost-effective energy-efficient growing environment.

**NEXUS**  
GREENHOUSE SYSTEMS  
LEADERS IN GREENHOUSE SYSTEMS INTEGRATION

**RELAX, IT'S A NEXUS.**

## HOW YOU CAN BENEFIT FROM THE NEXUS CLEAR SKY:

- **Hardier plant material** since you can harden off crops in full outdoor conditions with roof opening up to 85 degrees.
- **Provides protection of a closed in greenhouse** when needed.
- **Total growing flexibility** with the patented *Nex-Hood* which allows the roof to partially open during inclement weather and for de-humidification.
- **Less chance of crop loss** in case of sudden inclement weather since the roof closes in less than 3 minutes. Also each roof has its own independent motor.
- Exclusive one-piece cap and saddle means fewer parts and your greenhouse **goes together faster and with uniformity**. This may result in **less building costs**.
- Money saving design since trusses are factory welded using galvanized *Nex-Steel* to offer **consistency in dimension and ease of site construction**.
- Reduces many government re-entry requirements meaning **faster harvesting, packing, and shipping**.
- Growers have experienced **reduced need for chemicals and growth regulators**.
- **Reduces capital and operating costs** by eliminating cooling equipment.
- **Reduces electrical installation costs**.
- Requires smaller generators resulting in **cost savings**.
- Heavy duty double-tooth steel rack and pinions provide **increased strength** in windy conditions and **longer life** than aluminum racks.
- Nexus quality design and engineering means that the *Clear Sky* is **constructed to meet regional snow and wind load requirements**.
- **Easy to expand** existing range of Nexus structures since it gutter connects to all other style Nexus greenhouses.
- **Covering flexibility** of double poly, polycarbonate or glass depending upon your crop needs.
- **Unwanted moisture is caught and drained away** in the internal extrusion eliminating irregular drip on your crop.
- **Affordable**
- **Purchasing flexibility**. Lease options available.

## FEATURES OF THE NEXUS CLEAR SKY:

- One-piece factory welded trusses
- High Strength Tenzaloy column caps and gutter saddles
- Standard sizes - widths: 21', 31'6", and 42' Other sizes available on request.
- Superior Nexus rubber gasketing system.
- Optional rubber seal minimizes ice build-up at the hinge point.
- Optional painted frame is available.

## NEXPERTS HELP WHEREVER NEEDED.

Nexus Corporation, started in 1967, has three manufacturing plants: Pana, IL; Darlington, SC; and Northglenn, CO. We support you with **NEXPERTS** regionally located throughout the U.S. and Canada. In addition to your structure needs, they will advise you on our complete line of engineered benches, environmental controls, carts and automated production systems and machines. The result is a complete **integrated greenhouse system**.

**So, for maximum strength and versatility,  
call us and discover how  
the *Nexus Clear Sky* can help  
your business grow and grow.**
