

Innovative Products for the N•E•X•Generation™

Nexus Grand Teton®

Uncompromising Quality Affordably Priced

"Flexibility of design components, simple and straightforward erection, and strong customer service make Nexus stand apart from the competition. We didn't have to fit our equipment within a certain greenhouse; Nexus changed their structure to fit our situation. The customer service and product support impressed me most, and it is our satisfaction with their projects that caused us to choose Nexus again."

Tom Hamernik, Bluebird Nursery, Inc.

Bluebird Nursery, Inc. • Clarkson, Nebraska

Bluebird Nursery, which celebrates 50 years of operation this year, began as a hobby of Harlan and Shirley Hamernik's. Today, Bluebird Nursery is operated by sons Tom, Chuck and Mike, and provides millions of perennials, herbs, grasses and wildflowers to garden centers, landscapers, mail order firms, botanic gardens, parks and zoos throughout the US and Canada. Bluebird expanded covered growing space to 12 acres in 2002, when customized Vails were added to the existing Grand Teton structures for a new cutting and propagation range.

For generations, industry leaders have looked to Nexus for their most high-tech and innovative greenhouse solutions. By continually adapting our offerings to the changing market, we build the future one generation at a time.

Nexus offers a broad range of greenhouse structures to meet your individual growing needs at an affordable price.

Call Nexus today to find out how you can become part of the NEXGeneration.
