

Innovative Products for the N•E•X•Generation™

Nexus Dual Atriums®

Uncompromising Quality Affordable Pricing • Outstanding Service

"We like dealing with Nexus. Their innovation with the Dual Atrium has helped us, and we believe we ended up with an even better greenhouse. They're competitive and they're fair, and I feel good about that. Bottom line, when I put up a Nexus building I really just don't worry about it. I close the door at night and go home. It's built so the next generation of Olsons won't worry about it, either. I really believe in the statement, 'Relax, it's a Nexus.'"

Bart Olson, Olson's Greenhouse Gardens, Inc.

Olson's Greenhouse Gardens, Inc. • Santaquin, Utah

Roy Olson started Olson's Nursery as a hobby in 1943. His son Jack and then his grandson Bart expanded Olson's Greenhouse Gardens, Inc. into one of the largest bedding plant operations in the Intermountain West. Today Bart and his children have over 900,000 square feet of covered growing space. The Olsons turned to Nexus to create durable growing environments that maximize production and reduce energy costs — providing a worry-free way for their family to meet the needs of their NEXGeneration.

For generations, industry leaders have looked to Nexus for their most high-tech and innovative greenhouse solutions. By continually adapting our offerings to the changing market, we build the future one generation at a time.

Nexus offers a broad range of greenhouse structures to meet your individual growing needs at an affordable price.

Call Nexus today to find out how you can become part of the NEXGeneration.
